

DEMING ACADEMY
For Consulting & Training

Goal & mission of Deming Academy:

Is to spread the culture of quality in general & food safety in particular through lectures & seminars on quality & food safety supported for all students & engineers with a distinguished elite of the largest consultants, university professors & experts in the field

Beginning

The idea of the company began in 2016, when a group of researchers, academics & experts in the field of quality, food safety, safety & occupational health studied this project carefully, based on their extensive experience in this area, after years of work in the field of training & consulting, studying the training environment in Egypt to find out the most important features, & to overcome the challenges & problems faced by trainees & institutions. The company was officially registered in Egypt on the basis of scientific and systematic, to achieve the objectives of individuals & institutions.
